MISSION STATEMENT

- **Pride in Being the Best**
- **Excellence in Customer Service and Quality**
- **Customized Engineering, Fabrication and Installation**

At Anchor Enterprises of Cleveland, LTD., we pride ourselves in being the best. We have over 250 years of collective experience in the material handling business, providing custom fabricated mezzanines and professional installations.

Serving our customers is our #1 priority. We work closely with our customers to suit their every need and meet every specification. We will be with you every step of the way!

ABOUT US

Anchor Enterprises set the standard for design and quality in custom fabricated mezzanines and affiliated material handling products. We strive for excellence and dedicate ourselves to taking into account every minor detail.

We are a turn-key systems installer and custom design mezzanine fabricator with resources to accommodate customers filling both large and small orders. Our strengths have earned us a reputation for well-built products and exceptional services.

We invite and encourage you to take a moment and view some of the products and services that we offer. We are convinced that once you experience *The Anchor Difference* you will never again settle for less.

OUR PRODUCTS AND SERVICES

QUALITY

Anchor Mezzanine Systems are an inexpensive portable alternative to building expansion while providing needed floor space or storage areas for growth. Each Anchor Mezzanine System is custom designed to fit your requirements, including seismic conditions. Quality is built into every system to insure trouble-free usage and a long, economical life.

ANCHOR MEZZANINE SYSTEMS

- **Free Standing Type**
Structural mezzanine doubles existing floor space for bulk storage.
- **Storage Media Type**
Allows for mixing of storage media between levels.
- **Catwalk System Type**
Allows for multi-level shelving or shelf rack. Our "Bin Cap" system will even accommodate different brands of equipment in the same system.

DESIGN/ENGINEERING SERVICES

- **Site Visitation**
One of our engineers will make a site visit to verify existing conditions to insure accuracy and quality.
- **CAD Generated Plan Drawings**
These drawings are reviewed with our customers for their approval or changes.
- **CAD Generated Production and Installation Drawings**
Our shop and field crews will use these drawings for the fabrication and erection of the project.
Our in-house structural design/engineering department has over 30 years of experience in the material handling field. We utilize up-to-date autoCAD software that provides dynamic 2D and 3D design technology.

FABRICATION SERVICES

- **Shop Welders**
Our welders are experienced and certified.
- **Iron Worker Machines**
Our Iron Worker machines allow us to shear, punch, angle shear, channel shear and notch.
- **Lincoln Weld Machines**
These machines give us the control to provide strong penetrating welds.
- **Cleaning and Painting**
The steel product goes through our grit-blaster unit to be cleaned, then enters our paint spray booth for a quality finish.

FIELD SERVICES

- **System Installations and Knock-Downs**
Our field crews travel the USA and have over 140 years of collective experience. Complete installations include shelving, mezzanine catwalk systems, racks and conveyors. We have state-of-the-art "laser level technology."
- **Inventory Relocations**
We provide move services to relocate your inventory into your new facility.
- **Preventative Maintenance and Service**
Our mechanics do a complete P.M. on conveyors, pneumatic tube systems and vertical platform lifts.
